

# Johnstown Primary School

## How To Guides: How To Access and Use MyMaths

1. Go to <https://www.mymaths.co.uk>
2. Use the login details you were given at the start of the year to login, inputting the school username and password in the box on the first screen. Then, input your personal username and password in the box on the right hand side of the second screen:

### How to access MyMaths

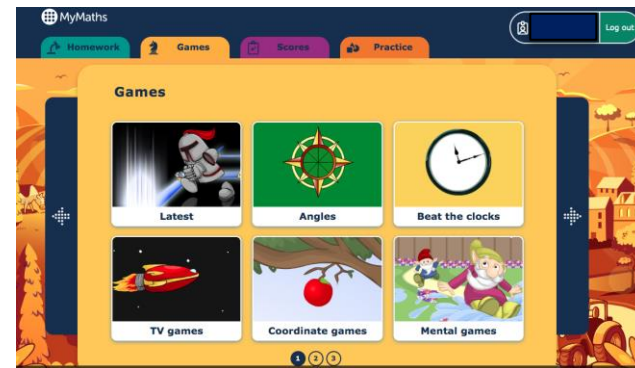

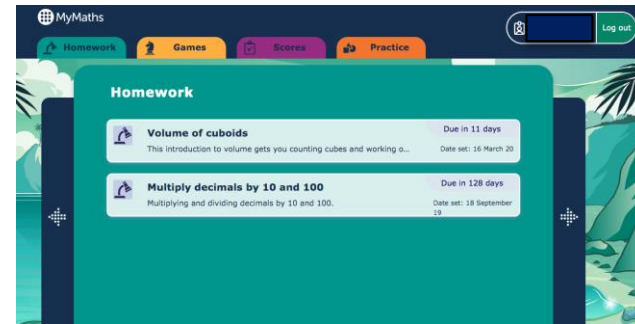

Go to [www.mymaths.co.uk](http://www.mymaths.co.uk) and login at the top of the page with the school's username and password. On the next page your child should enter their personal username and password in the My Portal box. MyMaths will then remember who they are and automatically log them in to the tasks.

### Login Details

The school username is: johnstown  
The school password is: rectangle186  
Your personal username is:   
Your personal password is:

3. On the home screen you will find any work set for you as well as access to games and other activities:

4. Your original letter explains how MyMaths works and what you should do if you have a problem in using this resource.

If your child has been set a task by their teacher it will appear in the Homework area. There is a link to the lesson if they want to revise first, and a link to the homework itself.

When your child completes both pages of an Online Homework the scores will be saved to the database. Their teacher will be able to see how well they did and leave feedback.

If a **green star** appears next to a topic, they have good skills in that area.

If an **amber star** appears they still have some difficulties.

If a **red star** appears they need to go back and relearn the topic. Get them to try the lesson again or ask their teacher for extra help.

If you want to work with your child, an effective strategy is to pretend that you have forgotten how to do something and ask them to show you how. Putting your child in the position of "teacher" is good for their confidence and gets them to talk about their thinking.

If you have any questions on using MyMaths at home, visit our dedicated support site. You can access this at any time by clicking Help at the top of the screen.
